

# Edavelly Charanya

UI Developer with 1+ years of experience | MERN Enthusiast.

## OBJECTIVE

Ambitious and excited to learn new skills.

Looking forward to work in a challenging environment where I can make use of my skills for developing my career and for the growth of organization.

## WORK EXPERIENCE

ADP, India — *Member Technical*

August 2023 - PRESENT

- Enhanced user experience through implementing user-friendly interfaces and website responsiveness.
- Managed component and application level state using react hooks/ Redux ensuring efficient state management and enhanced performance.
- Integrated RESTful APIs using axios and handled asynchronous operations to enhance application functionality.
- Used Agile methodology throughout the development of our application. We followed Scrum which involves bi-weekly sprints and daily stand-up meetings.

## PROJECTS

### Employee Wellness

- A website designed focusing on the enhancement of employee well-being by providing access to wellness events, wellness challenges and employee benefits.
- Built using React and Spring Boot.

### Hardware Hub

- An e-commerce web application that enables the user to purchase a custom PC.
- A custom-built PC is a computer that's built and customized to meet specific customer needs. Users can also purchase individual hardware components and pre-built PCs.
- Built using MERN(MongoDB, Express, React, Node.js) Stack.

### Weather Application

- A weather application that displays current temperature and weather form of the required location using JavaScript.

### Games

- Built games like Tic Tac Toe, Rock Paper Scissor, Reaction Tester using JavaScript.
